**IMPORTANT — REGARDING PARTS ORDERING.** **RUGER GP100®** revolvers are manufactured in Blued steel and Stainless steel versions. **WHEN ORDERING PARTS BE SURE TO STATE WHETHER YOUR REVOLVER IS BLUED OR STAINLESS. ALSO, INCLUDE THE COMPLETE SERIAL NUMBER AND SPECIFY THE CALIBER AND BARREL LENGTH.**

NOTE: A few components, for example sights blades and grip panels, are the same for blued and stainless steel.

Because it is a serial-numbered component, the frame of a revolver is defined as a “firearm” by Federal Law and is not offered for sale separately.

**BARREL NOTE:** All barrels are marked with safety message. (“Before using gun, read warnings in Instruction Manual available free from Sturm, Ruger & Co., Inc., Southport, CT, USA”.)

Barrels, cylinders, cylinder/crane assemblies and other parts designated by an asterisk (\*) must be fitted at the factory. Company policy is to proof-test, with Industry Proof Loads, all cylinders and barrels after fitting to the firearms in which they are to be used. This procedure ensures maximum protection to the gun user.

Design, specifications and prices are subject to change without notice. The Sturm, Ruger & Company “LOGO”, “RUGER” and “GP100” are registered U.S. trademarks.
