RE: Short Reset Trigger System (SRT) equipped pistols.

Dear SRT Customer,

Thank you for purchasing our new Elite series pistol with Short Reset Trigger System. Please be advised that there is an additional step in field stripping your pistol equipped with an SRT system. Disregard figure "C" in your owner's manual and follow the steps listed below.

**Figure – C (SRT supplemental Instructions):**

- Pull back the slide slightly to disengage the slide catch lever. Hold the slide firmly and allow it to move forward slowly.
- As the slide reaches its closed position, decock the pistol. This will allow the SRT safety lever to completely retract so the slide can be fully removed from the frame.
- Now slip the complete assembly, comprising slide, barrel, recoil spring and guide forward and off the frame.

Should you need any further support in disassembling your SRT equipped pistol please call our customer service department at 603-772-2303 ext. #3.

Thank you,

SIGARMS, Inc.
