

## Radio Boss USB

Ideal for Mobile, Portable  
and Fixed Station Use

### ***Overview and Description***

Radio Boss USB is a universal radio interface designed specifically to meet the needs of the multi-mode contest operator. It provides all the commonly needed computer interface requirements for your radio in one compact package. Radio Boss USB solves the problems associated with many of the available interfaces:

- Supports all modes and three optically isolated Darlington key outputs (DTR,RTS,TXD)
- Compatible with MMTTY EXT-FSK mode
- Hi Performance USB adapter that works with all RS-232 devices and is compatible with XP, Vista, Windows 7 and MAC
- Serial Radio Control via USB, ICOM CI-V, or TTL (Kenwood)
- Transmit and Receive Transformer isolated audio channels
- Front Panel Audio Level Controls for those needed quick adjustments
- Supports MIC through sound card, or Radio Boss MIC switching with DTR or RTS
- Front Panel LEDs
- Completely USB Powered
- Uses all Standard Connectors and Cables
